SUBJECT: Request for Analysis by the
President's Commission on Economic and
Military Assistance

We believe the four IA's by OGI on the major West European countries' arms exports policies cover that topic very well. We have selected a few additional papers that may not have been passed to the Commission that also discuss European military and foreign policy issues more generally. We cannot determine at this point what additional information the Commission needs. We would suggest that they read the package as a whole and note more specifically the subjects on which they would like additional detail. We could then address those requests.
